§ 57.1 *Removal from the United States of alien enemies from other American republics.* The proclamation of the President of the United States, No. 2685, dated April 10, 1946, provides in part:

1. All alien enemies within the continental limits of the United States brought here from other American republics after December 7, 1941, who are within the territory of the United States without admission under the immigration laws, shall, if their continued residence in the Western Hemisphere is deemed by the Secretary of State to be prejudicial to the future security or welfare of the Americas, be subject upon the order of the Secretary of State to removal from the United States and may be required to depart therefrom in accordance with such regulations as the Secretary of State may prescribe.

2. In all cases in which the Secretary of State shall have ordered the removal of an alien enemy under the authority of this Proclamation or in which the Attorney General shall have ordered the removal of an alien enemy under the authority of Proclamation No. 2655 of July 14, 1945, thirty days shall be considered, and is hereby declared to be, a reasonable time for such alien enemy to effect the recovery, disposal, and removal of his goods and effects, and for his departure.

§ 57.2 *Order of the Secretary of State.* When a determination has been made by the Secretary of State that the continued residence in the Western Hemisphere of an alien enemy, brought to the United States from another American republic after December 7, 1941, who is within the territory of the United States without admission under the immigration laws, would be prejudicial to the future security or welfare of the Americas, an order will be signed by the Secretary of State directing that the said alien enemy depart from the United States within thirty days after notification of the order and that, if he fails or neglects so to depart, the Commissioner of Immigration and Naturalization is to provide for the alien enemy's removal to the territory of the country of which he is a native, citizen, denizen, or subject.

§ 57.3 *Service of removal order on alien enemy.* A copy of the Secretary of State's order of removal will be delivered to the alien enemy at the place where he is interned.

§ 57.4 *Thirty-day period for voluntary departure.* An alien enemy who is the subject of a removal order shall have thirty (30) days after receiving notification of the removal order to depart from the United States. Unless the public safety otherwise requires, the Commissioner of Immigration and Naturalization is authorized to release such alien enemy from internment under appropriate parole safeguards in order that the alien enemy may settle his personal and business affairs, provide for the recovery, disposal, and removal of his goods and effects, and make arrangements to depart from the United States.

§ 57.5 *Involuntary removal from the United States.* In the event that an alien enemy, who is the subject of a removal order, fails or neglects to depart from the United States within the above-mentioned thirty-day period, the Commissioner of Immigration and Naturalization will take the alien enemy into

custody and will provide for his removal to the territory of the country of which he is a native, citizen, denizen, or subject, as soon as transportation is available.

This regulation shall become effective immediately upon registration in the Division of the Federal Register.

TITLE 29—LABOR

Chapter VI—National Wage Stabilization Board

PART 803—GENERAL ORDERS

WAGES AND SALARIES FOR NEW EMPLOYEES, JOBS, DEPARTMENTS AND PLANTS

The National Wage Stabilization Board has amended General Order No. 6 to read as follows:

§ 803.6 *Wages and salaries for new employees, new jobs, new departments and new plants.* (a) The hiring of an individual at, and the payment of a wage or salary rate in excess of the rate properly established in the plant for employees of similar skill and productive ability within the classification in which the individual is employed is an increase in wages or salary. In accordance with the rules governing wage or salary increases, no approval is required for the payment of such excess rate, but the excess rate may not be used as a basis for price relief or for increasing the cost of goods or services furnished to the United States unless and to the extent that such excess rate has been approved by the National Wage Stabilization Board pursuant to the rules governing approval of wage increases.

(b) The hiring of an individual at a wage or salary rate lower than the rate or the minimum of the range of rates properly established in the plant for the job classification in which the individual is employed is a decrease in wages or salary and requires the prior approval of the National Wage Stabilization Board.

(c) Wage or salary rates, including incentive and piece rates, may be set in an established plant for new job classifications or for existing job classifications in which there has been a significant change in job content without the necessity of obtaining the specific approval of the National Wage Stabilization Board if the new rates are set on the basis of previously existing rate setting practices so that equivalent rates are paid for jobs of equivalent job content, and proper rate relationships are maintained between related job classifications. Rates set in accordance with this provision shall be deemed approved by the National Wage Stabilization Board and by the Economic Stabilization Director.

(d) Wage or salary rates may be established for job classifications in a new or in an established plant without the

necessity of obtaining the specific approval of the National Wage Stabilization Board if there are employed in such plant at the time the rates are established not more than eight employees: *Provided*, That whenever such a plant employs more than eight employees the wage or salary rates of all employees, including any rates previously established without the approval of the Board, shall be submitted to the Board for approval within 30 days from the date when such plant first employs more than eight employees. Authorization or approval of all rates so submitted will be granted or denied, subject to the conditions specified in paragraph (e).

(e) Wage or salary rates for new plants, and for new job classifications in existing plants which are not covered by paragraphs (c) and (d) must be submitted to the National Wage Stabilization Board for approval prior to being put into effect. Such rates will be authorized as not constituting wage decreases and will be approved for purposes of price relief and increased costs to the United States Government if:

(1) They are based upon rates paid for comparable occupations in the local labor market area involved; or

(2) They are based upon wage rate practices previously established in other plants operated by the applicant; or

(3) Where neither (1) nor (2) is applicable, they are based upon rates paid for comparable occupations in other plants in the industry involved.

A schedule of rates for a new plant will be authorized and approved if the rates for key job classifications come within the standards specified in this paragraph, and if the rates for other related jobs bear a reasonable relationship to these key rates.

(f) If any of the proposed rates are found by the Board to exceed the applicable standards specified in this order, such rates will be authorized but will be approved as a basis for seeking price relief or for computing costs to the United States Government only to the extent that the rates come within such standards. If any of the proposed rates are found by the Board to be below the applicable standards specified in this order, such rates will be disapproved as constituting wage decreases and the payment of any rates so disapproved will subject the employee to the sanctions prescribed by the Stabilization Act and the orders and regulations issued thereunder.

PART 4700—VETERANS' EMERGENCY HOUSING PROGRAM

[Veterans' Housing Program Order 1, Supp. 3]

CLASSIFICATION OF STRUCTURES UNDER VHP-1
AND CONSTRUCTION NOT COVERED BY VHP-1

(a) *What this supplement does.* Paragraph (d) (1) of Veterans' Housing Program Order 1 provides that it is not necessary to get permission under the order to do one or more jobs on a structure if the cost of each job does not exceed the allowance given for that class of structure. Different classes of structures are listed in the order, each with a specific job allowance. This supplement lists certain kinds of buildings and states the classes into which the various buildings fall. This supplement also explains the rules applying to buildings used for more than one purpose. In addition, this supplement lists certain items which do not come within the definition of "structure" given in the order and which are therefore wholly exempt from the order.

(b) *Classification of structures.* Paragraph (d) (1) of VHP-1 provides for an allowance of \$400 per job for certain kinds of structures, an allowance of \$1,000 per job for other kinds of structures, an allowance of \$15,000 per job for other kinds of structures, and an allowance of \$200 per job for structures not covered by the previous classes. The provisions of VHP-1 are quoted below and additional examples of structures falling within each class are listed.

(1) "\$400 for a house or other structure (such as a garage) on residential property designed for occupancy by five families or less. This allowance also applies to farmhouses and other housing accommodations on farms, except bunkhouses and other accommodations for transitory farm laborers". (Paragraph (d) (1) (i) of VHP-1.)

The following kinds of structures are included in this classification:

Any individual house designed for occupancy by 5 families or less even though it is on the property of a commercial, utility, institutional or industrial concern and used for the purpose of housing employees of the commercial, utility, institutional or industrial concern.

A cabin is considered a separate cabin if it has independent outside walls even though the space between it and the next cabin is sheltered by a roof and is used as a garage. A management building used for operating the cabins is considered a commercial building under paragraph (b) (2) of this supplement.

(c) *Construction not covered by the order.* The restrictions of VHP-1 apply to work on a "structure", which is defined in paragraph (b) (1) of the order as "any building, arena, stadium, grandstand, pier, moving picture set or billboard". The following are not considered "structures" under the order and the restrictions of the order do not apply to work on them. However, the restrictions of the order do apply to work on "structures" built or used in connection with the following or to work on "structures" which is made necessary by work on the following:

Boardwalks
 Breakwaters
 Bridges
 Bulkheads
 Canals
 Cemetery monuments, including private burial vaults
 Dams
 Drainage or irrigation ditches

Walls, including retaining walls (except where a wall serves as a foundation or other integral part of a structure)
 Wells

(d) *Structures used for more than one purpose.* Paragraph (d) (4) of VHP-1 provides that if a structure is used for more than one purpose, the use to which the greatest part of the structure is put determines the allowance. In general the test will be made on the basis of floor area. For example, if a building has apartments on three of the floors and a store on the ground floor, it is primarily residential and falls under paragraph (b) (1) of this supplement, if it has five or less apartments, or under paragraph (b) (2) of this supplement if it has six or more apartments. If a building is half residential and half commercial or industrial, or half residential and half agricultural, it is considered primarily residential.

(e) *Subordinate structures.* The last sentence of paragraph (d) (4) of VHP-1 provides that "The allowance given for jobs on a structure apply to all subordinate or related structures situated near and used in connection with the structure". This means that office buildings, warehouses and garages situated on the immediate premises of an industrial or utility plant and used in the operation of the plant fall within paragraph (b) (3) of this supplement and the \$15,000 per job allowance applies to them. However, a "downtown" office building, even though used exclusively for one industrial or utility company, does not come under this provision, but is under paragraph (b) (2) of this supplement like other office buildings. Houses, hotels and apartment houses are never considered to be used in connection with an industrial or commercial structure, except where they form an integral part of an industrial or other structure. Bunkhouses, on the other hand, if located on the plant site are considered to be used in connection with the related structures, if any, and have the same allowance as the related structure.

(f) *Separate jobs.* Paragraph (d) (3) of VHP-1 provides that a related series of operations in or on a structure performed at or about the same time or as part of a single plan or program constitute a single job and that no job may be subdivided for the purpose of coming within the allowance given under paragraph (d) (1). For example, all work done in connection with the conversion of a building from one purpose to another or the modernization of a building must be counted as a single job. However, if related work is done on 2 or more separate structures, the work is never considered one job, but the work done in each structure must be considered separately under the rules stated above. (See paragraph (f) of Supplement 2 to VHP-1 for an explanation of what jobs are exempt from the order as having been started before it became effective.)

Chapter XI—Office of Price Administration

PART 1346—BUILDING MATERIALS

[RPS 45, Amdt. 9]

ASPHALT AND TARRED ROOFING PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

A new § 1346.63 (1) is added to read as follows:

(1) *Modification of maximum prices for sales made pursuant to "AAA" rating granted by letter by the Civilian Production Administration to the Red Cross.*

(1) The freight equalization requirement of this section shall not apply where:

(i) The manufacturer makes shipments of asphalt and tarred roofing products pursuant to an "AAA" rating granted by letter to the American Red Cross by the Civilian Production Administration, and

(ii) Such products will be used for relief of disaster caused by tornado, hurricane, and hailstorm in certain counties of Texas.

(2) Notwithstanding the provisions of (1) above, the manufacturers' modified maximum prices shall continue to be subject to the specific allowance of \$0.09 per hundredweight.

(3) Notwithstanding the provisions of § 1346.65, any reseller purchasing asphalt or tarred roofing products for resale in the same form, from any manufacturer who has modified his maximum prices pursuant to (1) above, may increase his maximum prices established on May 26, 1946, by the dollars-and-cents increase in cost to him resulting from the increase permitted the manufacturer in (1) above. However, in any area where specific maximum prices are fixed by an area pricing order, such specific maximum prices shall apply in that area.

(4) Any manufacturer who modifies his maximum selling prices for asphalt and tarred roofing products pursuant to (1) above shall furnish to each buyer purchasing such products for resale in the same form on or before the date the manufacturer makes delivery at the adjusted price, a written statement to read as follows:

Sales of these products are made pursuant to an "AAA" rating granted by letter to the American Red Cross by the Civilian Production Administration for use in repairing damage caused by tornado, hurricane and hailstorm in certain counties in the State of Texas. Effective May 27, 1946, the Office of Price Administration has granted the manufacturer certain modifications in his maximum prices for asphalt and tarred roofing products for sales made under this "AAA"

rating. Resellers are permitted to add the actual dollars-and-cents amount of the resulting price increase to his existing maximum price for these products actually purchased at the increased price for resale in the same form.

(5) This § 1346.63 (1) shall terminate on July 31, 1946.

This amendment shall become effective May 27, 1946.

Issued this 27th day of May 1946.

Administrator.

2. The third unnumbered paragraph of section 5 is amended to read as follows:

In all other cases except those under paragraphs (a) (7), (a) (12), (a) (13), (a) (14), (c) (6), and (c) (8) of this section, the adjustment shall be on the basis of the rent which the Adminis-

trator finds was generally prevailing in the defense-rental area for comparable housing accommodations on the maximum rent date: *Provided,* That in cases under paragraphs (a) (6) and (c) (5) of this section the adjustment may be on the basis of the rental agreement in force on the date determining the maximum rent.

(d) *Notices required*—(1) *Notices prior to action to remove tenant.* Every notice to a tenant to vacate or surrender possession of housing accommodations shall state the ground under this section upon which the landlord relies for removal or eviction of the tenant and the facts necessary to establish the existence of such ground. NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 23d day of May A. D. 1946.

Notice is hereby given that Iowa Public Service Company ("Iowa"), a public utility and registered holding company, and its parent, Sioux City Gas and Electric Company ("Sioux City") also a public utility and registered holding company, have filed a joint application and declaration pursuant to the Public Utility Holding Company Act of 1935.

All interested persons are referred to said joint application and declaration which are on file in the offices of the Securities and Exchange Commission for a statement of the transactions therein proposed, which may be summarized as follows:

1. Iowa proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50 promulgated under the act, the following securities:

(a) \$13,750,000 principal amount of 30-year --% First Mortgage Bonds (due 1976), the interest rate on said bonds (a multiple of $\frac{1}{8}$ of 1% but not in excess of 3%) and the price to be received by Iowa to be determined by the competitive bidding:

(b) 42,500 shares of new --% Preferred Stock of the par value of \$100 per share, the dividend rate (a multiple of not less than $\frac{1}{20}$ of 1% but not in excess of 4%) and the price to be determined by the competitive bidding.

2. Iowa proposes to borrow \$1,750,000 from a bank or banks on notes due \$750,000 one year from the date of issue and \$100,000 semi-annually thereafter, with interest at a rate not to exceed 2% per annum.

3. Iowa proposes to offer to its common stockholders pro rata, the right to subscribe to 137,333 shares of its Common Stock of the par value of \$15 per share, on the basis of one share of such additional Common Stock for each three shares of Common Stock held of record and at a price to be determined by the Board of Directors. Iowa will issue to the holders of its Common Stock transferable Subscription Warrants evidencing such subscription rights but exercisable only in amounts calling for full shares of additional Common Stock. The subscription rights will be exercisable upon issue and will expire about 12 days after the date of issue.

4. In addition, Sioux City may acquire from Iowa up to but not exceeding 15,000 shares of such additional Common Stock, representing shares not subscribed for by other holders of Subscription Warrants, at a price equal to the subscription price for such shares determined by Iowa's Board of Directors as aforesaid.

The proceeds of such sale of Bonds, Notes, Preferred Stock and Common Stock are proposed to be used to redeem

and retire outstanding bonds, debentures and preferred stock of Iowa as follows:

and to pay for expenses incident to the financing and necessary capital improvements and/or for additional working capital and/or to prepay the \$750,000 note maturing June 1947 in whole or in part.

In connection with its program of re-financing, Iowa proposes to amend its charter in the following respects; increase its authorized capital stock; create a new class of preferred stock known as Cumulative Preferred Stock of the par value of \$100 per share; provide restrictions on common stock dividends; authorize further amendments to the charter on or after the date fixed for the redemption of the presently outstanding preferred stocks so as to reduce the capital of the company by the amount of capital represented by such presently outstanding preferred stocks and to eliminate all provisions relating to the presently outstanding preferred stocks.

The applicants-declarants have designated sections 6 (a), 7, 9, 10, 12 (c) and 12 (f) of the act and Rules U-42, U-43 and U-50 as being applicable to the proposed transactions.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to the matters set forth in said application-declaration and that said application-declaration should not be granted or permitted to become effective except pursuant to further order of this Commission:

It is ordered, That a hearing on said application-declaration, under the applicable provisions of said act and the rules of the Commission promulgated thereunder, be held at 10:00 a. m., e. d. s. t., on the 4th day of June, 1946, at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. that purpose shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a Trial Examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by such filing, particular attention will be directed at such hearing to the following matters and questions:

1. Whether the securities proposed to be issued and sold by Iowa are reasonably adapted to the earning power of Iowa and to the security structure of Iowa and other companies in the same holding company system and are necessary and appropriate to the economical and efficient operation of the business or businesses in which Iowa is engaged.

2. Whether the terms and conditions of the issue and sale of the securities of Iowa are detrimental to the public interest or the interest of investors or consumers.

3. Whether the proposed acquisition by Sioux City of additional shares of the common stock of Iowa and the price to be paid for such shares, including the price to be paid by Sioux City for up to 15,000 shares not subscribed for by other holders of Subscription Warrants, are in conformity with the applicable standards of the act.

4. Whether the fees, commissions or other remuneration to be paid in connection with the proposed transactions are for necessary services and are reasonable in amount.

5. Whether the proposed amendments to the Articles of Incorporation of Iowa with respect to its Common and Preferred Shares will result in an unfair or inequitable distribution of voting power among holders of its securities, or are otherwise detrimental to the public interest or the interest of investors or consumers.

6. Whether it is necessary or appropriate to impose terms or conditions in the public interest or for the protection of investors or consumers in connection with the proposed transactions.

7. Whether the proposed accounting entries to be recorded in connection with the proposed transactions are proper and conform to sound accounting principles.

8. Generally, whether, in any respect, the proposed transactions are detrimental to the public interest or to the interest of investors or consumers or will tend to circumvent any provisions of the act or the rules, regulations or orders promulgated thereunder.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this order by registered mail to Iowa Public Service Company, Sioux City Gas and Electric Company and the Federal Power Commission, and that notice of said hearing shall be given to all persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935; and that further notice be given to all persons by publication of this order in the FEDERAL REGISTER.

Notice is hereby given that a declaration has been filed by American Gas and Electric Company, a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company, pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder.

Notice is further given that any interested person may, not later than June 4, 1946, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, such declaration as filed or as amended may be permitted to become effective pursuant to Rule U-23 of the rules and regulations promulgated pursuant to said act. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said document, which is on file in the office of this Commission, for a statement of the transactions, therein proposed, which are summarized as follows:

American Gas and Electric Company proposes to redeem 204,000 shares of its 4¾% cumulative preferred stock at the redemption price of \$110 per share, plus accrued dividends to the redemption date. Such redemption price will total \$22,440,000, exclusive of accrued dividends. The redemption provisions relating to such stock require a thirty day notice of the intention to redeem. American Gas and Electric Company desires to effect the proposed transactions in order to employ a major portion of the proceeds from the sale of its investments in The Scranton Electric Company and the West Pittston-Exeter Railroad Company, which sale was consummated on or about May 8, 1946. Total proceeds from such sale, after deducting estimated expenses of \$57,851, amounted to \$26,474,497.

American Gas and Electric Company has requested that the Commission enter an order permitting said declaration to become effective by June 5, 1946. The company has designated section 12 (c) of the act and Rule U-42 as applicable to the proposed transaction.

By the Commission.

(b) *Reseller's maximum prices.* (1) Each reseller shall calculate his maximum resale prices for articles covered by this order by adding to his invoice cost, the same percentage markup which he has on the "most comparable article" for which he has a properly established maximum price. For the purposes of this order, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a maximum price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called by OPA Form 620-759 with regard to how he determined his maximum price, for so long as the Emergency Price Control Act of 1942, as amended remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a maximum price under § 1499.3 (c) of the General Maximum Price Regulation. Maximum prices established under that section will reflect the suppliers' prices as adjusted in accordance with this order.

(2) The provisions of Supplementary Order No. 153 shall not apply to sales of articles covered by this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, discounts, allowances, and other price differentials, in effect during March 1942, or which have been properly established under the applicable OPA regulation.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles covered by this order. This notice may be given in any convenient form.

(e) *Revocation of amendment.* This order may be revoked or amended by the Price Administrator at any time.

(f) *Effective date.* This order shall become effective on the 28th day of May 1946.

[Order 110 Under 18 (c)]

TRANSPORTATION OF COAL ON GREAT LAKES

ESTABLISHMENT OF MAXIMUM PRICES

Applications have been made by carriers engaged in the transportation of coal from lower Lake ports to Milwaukee, Wisconsin and to Duluth, Minnesota, for authorization to increase their coal freight rates. The increase is sought to compensate the carriers for light return movements of their vessels. Although only two carriers have sought price relief, the problem is general to all carriers engaged in this service. Normally the basic cargo from upper Lake ports to lower Lake ports is ore, and coal is transported on return movements in vessels which would otherwise sail in ballast. The established rate on coal is accordingly too low for compensatory one-way operation but because of present emergency conditions, ore cargoes are not available. There is a critical coal shortage in areas on the upper Lakes which are normally supplied by Lake coal, and an adjustment in the coal freight rate is necessary to relieve a local shortage. It is indicated that the shippers will absorb the increased transportation costs. To provide for post-seasonal operation of vessels for the transportation of coal from lower to upper Lake ports in 1945, it was determined that a rate of \$1.00 per net ton for such transportation of

coal when return cargoes were not available, was reasonable and in line with rates otherwise established under the General Maximum Price Regulation. This order will establish the same level of rates.

For the reasons herebefore stated, and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and § 1499.18 (c) as amended of the General Maximum Price Regulation, *It is ordered.* That the present maximum rates for the transportation of coal by water from lower Lake ports to Duluth, Minnesota may be increased by not to exceed 55 cents per net ton, and the present maximum rates to other upper Lake ports may be proportionately increased.¹ *Provided,* That the increases authorized by this order may be charged only when return trips are made light because of unavailability of cargo.

This order shall become effective as of May 1, 1946.

Issued this 27th day of May 1946.

Administrator.
